

A close-up photograph of several thick, textured paint swatches. The colors include a bright white, a light grey, a muted sage green, and a vibrant terracotta red. The paint is applied in broad, overlapping strokes, creating a sense of depth and texture. The background is a solid black, which makes the colors stand out. The word "PIGMENTO" is printed in white, uppercase letters across the middle of the white and grey swatches.

PIGMENTO

# PIGMENTO

9 Colori/ Colors

## COLORE COME ESSENZA DELLA MATERIA.

Ispirato alla resina cementizia spatolata a mano, Pigmento trova nella sensuale pastosità del colore la sua cifra espressiva. Materia che dà corpo a nuance uniche e irripetibili, compatte e insieme sfaccettate, resina significa anche superfici dalla plasticità ondulata e sinuosa, frutto di una gestualità sapiente e sempre nuova.

È dunque un insieme complesso di suggestioni cromatiche e materiche quello che dà vita a Pigmento: un progetto ultra-realistico e tecnicamente ineccepibile articolato in 9 colori disponibili sia in gres porcellanato a spessore tradizionale che in grandi lastre sottili. Una collezione che bilancia alla perfezione minimalismo e decorativismo, tra texture dalla marcata tridimensionalità e lastre effetto carta da parati. Qui, la matrice artistica dei soggetti è esaltata dalla forzatura delle proporzioni, fino a un fuori scala che – ancora una volta – fa emergere la vitalità del colore e l'espressività della materia.

## COLORE, FORMA, ATMOSFERA.

Con Pigmento, il colore entra in relazione con lo spazio abitato e con la sua luminosità attraverso una superficie morbida e opaca, disseminata di riflessi screziati. Uno spazio cromatico ampio e ben bilanciato, progettato per vestire ambienti residenziali e commerciali attraverso avvolgenti campiture monocromatiche o abbinamenti inediti e raffinati.

## COLOUR AS THE ESSENCE OF MATTER.

Inspired by hand-trowelled cement resin, Pigmento expresses its personality through the sensuality of dense colour. Matter that gives substance to unique, unrepeatable shades, compact and yet multi-faceted, resin takes the form of surfaces moulded into constantly new waves and corrugations by the skilled hands which applied them.

Pigmento is thus the outcome of a complex set of inputs of colour and substance: it is an ultra-realistic, technically impeccable project comprising 9 colours, available in both standard thickness porcelain stoneware and large slimline slabs. It is a collection that strikes a perfect balance between minimalism and a love of decoration, between sharply three-dimensional textures and wallpaper effect slabs. Here, the designs' artistic character is enhanced by the exaggerated proportions, right up to an oversize scale that once again reveals the vitality of the colour and the materials' expressive power.

## COLOUR, FORM, MOOD.

With Pigmento, colour interacts with home interiors and their intrinsic light via a soft, matt surface with scattered reflective streaks. A large, well balanced chromatic assortment, designed to cover residential and commercial interiors with thrilling expanses of single colour or unusual, refined combinations.
